

EDUCATION

Bannari Amman Institute of Technology, Sathyamangalam
B.Tech – Computer Science and Business Systems (CSBS) | **CGPA: 8.97/10**
Expected Graduation: 2028

TECHNICAL SKILL

Languages: Python, C, Java, SQL
Backend: FastAPI, Node.js, REST APIs, Socket.IO
Databases: MySQL, Redis
AI Technologies: LLMs, RAG, CrewAI, LangGraph, Groq API
DevOps & Tools: Docker, Git, GitHub, VS Code

PROJECTS

DEBUGGING AGENT

- TECH STACK:** CHROME EXTENSION, FASTAPI, GROQ (LLAMA 3)
- Built a Chrome Extension (MV3) that captures **fetch calls, errors, user events, and DOM mutations** to construct a real-time causal timeline.
 - Detects silent API schema mismatches and correlates component lifecycle patterns to pinpoint render failures.
 - Integrated with **FastAPI + Groq (Llama 3)** to generate root-cause explanations with confidence scores in **<10s**.

APIFORGE | AUTONOMOUS BACKEND GENERATION SYSTEM

- TECH STACK:** FASTAPI, CREWAI, LANGGRAPH, REDIS, DOCKER
- Built an autonomous backend generation platform using **CrewAI, LangGraph, and FastAPI** to transform natural language requirements into production-ready APIs.
 - A self-correcting workflow where agents generate code, execute Pytest suites, and fix failures iteratively.
 - Automated creation of SQLAlchemy models, REST endpoints, OpenAPI specifications, and Docker deployment artifacts. Managed **agent orchestration**, workflow state, and retry execution using **Redis-backed persistence**.

CORE COMPUTER SCIENCE

- Data Structures & Algorithms- Learning by solving leetcode problems
- Object-Oriented Programming- Studied from W3Schools
- Database Management Systems

CODING PROFILE

LEETCODE: Solved 200+ problems.
Link: <https://leetcode.com/u/trakshana/>

ACHIEVEMENTS

- TANCAM-2025:** Built a web application for disabled people to find their related job.
- HACK TO THE FUTURE-2025:** Participated in Hack To The Future hackathon , got selected in online round and participated in offline hackathon
- Achieved the highest CGPA** (above 9.0) in the department in the first and second semester
- Conducted a **workshop on Agentic AI** for junior students
- Completed 2 certifications from **Oracle Foundations**.
